

Souptik Das

MuleSoft Developer | MuleSoft Mentor

Kolkata, India | Ph: +919674170544 | souptikdas.in | souptikdas2@gmail.com | [LinkedIn](#) | [Blog](#)

Professional Summary

MuleSoft Developer with 3+ years of experience in designing scalable integrations for insurance and financial domains. Expertise in API migrations, custom connector development, and optimizing performance for high-traffic applications. Skilled in on-premises, hybrid and cloudHub deployments with a strong focus on security and resilience. Delivered reliable applications with policies and MuleSoft best practices ensuring compliance with enterprise standards.

Experience

Cognizant Technology Solutions

Associate

Kolkata, West Bengal | Sept 2024 – Present

- Designed and built reliable applications to process **20,000,000 transactions** monthly, ensuring high availability.
- Implemented **rollback strategies** and developed **circuit-breaker** connector to build resilient applications.
- Enhanced application security and vulnerabilities by integrating **credential vaults, PBE and secure properties**.
- Led and managed 6+** end-to-end development projects, from requirement gathering to production support.
- Conducted **MUnit, load testing, performance testing and fine tuning** to improve application performance.
- Worked on both **API led Connectivity** and **Event Driven Architecture** design patterns.

Programmer Analyst

Kolkata, West Bengal | Feb 2022 – Sept 2024

- Upgraded **50+ APIs from Mule 3.9 to 4.4**, enhancing security, performance across diverse business operations
- Developed **custom Mule connectors**, replacing deprecated components to ensure seamless integration.
- Integrated MuleSoft with **SMTP, WMQ, Webservices, Salesforce, Rest services** etc.
- Built **secure file archival connectors**, improving enterprise compliance with security standards in file processing.

Technical Skills

- Platforms & Tools:** Anypoint Platform, Anypoint Studio, API monitoring, Atlassian Suite, Jenkins, VS Code, Dynatrace.
- Integration:** Apache Kafka MQ, Salesforce, MongoDB, Stripe, Snowflake, Solace, Google API, OpenAPI, Gemini API.
- Languages:** DataWeave, RAML, Java, HTML, CSS.
- Repositories:** GitHub, Bitbucket, Azure DevOps

Projects

Custom Circuit Breaker Connector | MuleSoft, Java

- Enables circuit-breaking to prevent data loss during transaction failures.
- Modular design allows easy integration across applications.

Secured Archival Connector | MuleSoft, Java

- Archives multiple files based on regex with password-protected folders.
- Streamlined secure file storage for enterprise needs.

Application Monitor & Log Analyzer | MuleSoft, SQL Database, Java

- Automated health checks and log analysis for exception tracking and resolution.
- Reduced manual monitoring efforts by generating actionable reports.

Education

- B.Tech | Applied Electronics and Instrumentation Engineering
CGPA: **8.65**

2018 – 2022
RCCIIT, Kolkata

Certification and Achievements

- MuleSoft Mentor** (2024 - Present), Recognized for contributing to the MuleSoft developer community ([Link](#))
- Certifications- **MCD-1, MCD-2, MCIA, Salesforce AI Associate** ([Link](#))
- Recognized** for outstanding performance by Cognizant Leadership ([Link](#))
